

9th European Phycological Congress

30.08 – 3.09.2027 Kraków, Poland

Organisers:

Dear Sir/Madam,

The European Phycological Congress (EPC) is an international, interdisciplinary event organised by the Federation of European Phycological Societies (FEPS) together with local research institutions and universities.

It will be held for the ninth time from **30 August to 3 September 2027 in Kraków, Poland**, and will bring together phycologists, hydrobiologists, other scientists and business representatives from Poland and around the world.

The goal of the conference is to build an active platform for cooperation and the exchange of experience and knowledge in the field of micro- and macroalgae from marine, freshwater and terrestrial ecosystems, as well as to discuss different aspects of applied science. Algae are a very important resource used in various markets such as biofuels, cosmetics, fertilisers, food, dyes and many others.

On behalf of the organisers of the 9th European Phycological Congress:
Federation of European Phycological Societies (FEPS), Institute of Nature Conservation, Polish Academy of Sciences, Polish Phycological Society, Faculty of Biology, Jagiellonian University in Kraków, and Grupa A-05, the Conference Office, we invite you to support and collaborate in the preparation and organisation of the conference.

Four hundred specialists from all over the world take part in this event every four years.

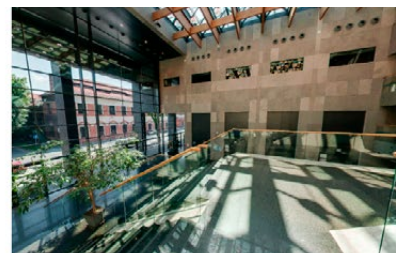

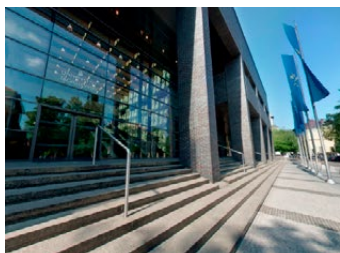

The participation of experts and speakers ensures a **high substantive level of the meeting**. Numerous accompanying events, such as workshops, thematic sessions, special sessions, a welcome reception, gala dinner and an exhibition of companies, **offer opportunities to broaden networks of business and professional contacts**. Special lectures will be given by eminent professors from different countries. The conference is tailored to a broad audience within the scientific community, exposing attendees to a diverse range of topics from world-leading researchers.

The conference will host more than 200 professional speakers from over 40 countries, representing 300 institutions (including universities).

By sponsoring EPC9, your company or organisation will gain high visibility among an international audience, including both young, emerging researchers and high-profile scientists in various fields. Additionally, your company or organisation will have a strategic opportunity to present the activities to a wide community of scientists.

For more information on EPC9, please [click here](#), and for sponsoring opportunities, please contact us.

Best regards
Chair of the Local Committee
Prof Elżbieta Wilk-Woźniak
Institute of Nature Conservation
Polish Academy of Sciences

Venue of 9 EPC:

Auditorium Maximum Jagiellonian University, Kraków, Poland
